

PARENT / STUDENT HANDBOOK

Revised August 22, 2025

INTRODUCTION

We welcome you to Timmerman School. You will find our school to be a warm and friendly place, where faculty and administration are eager to help your child learn, grow, and progress. The purpose of this handbook is to acquaint students and parents with the working details of the school. Please familiarize yourself with these policies.

It is important to note that Timmerman School functions on the belief that all of our students come to school every day prepared for a serious academic purpose. Self-discipline, self-motivation, and respect for others are the keys to success. We firmly believe that no student has the right to interfere with either the teaching or learning process.

STATEMENT OF EDUCATIONAL PHILOSOPHY

Timmerman School believes that the child is an eager and willing participant in the action of learning if given a stimulating and nurturing environment. To foster this desire, the faculty, staff, and administration of Timmerman School strive to provide a safe, creative, thought-provoking atmosphere in which a child can learn to wonder, to question, to create decision-making skills, and to comprehend the meaning and function of the world around him or her. The development of self-discipline, resourcefulness, responsibility, respect for others, and respect for self is, therefore, fundamental to the school's educational philosophy. It is the goal of the school to produce graduates with highly developed thinking skills who are well grounded in all fundamental academic disciplines. With the emphasis on quality, we seek to "walk the road to success," and we ask the students to join us.

By doing so, the parent may be proactive in keeping up with their child's grades and securing academic help when the need arises.

2. Providing a quiet, comfortable place, well-lighted and with ample space for the child to study.
3. Encouraging their child to complete each homework assignment.
4. By not doing the homework assignments for their child (this does not mean that parents should not point out principles involved or help give illustrations and make suggestions).

Students' 1st-8th grades will have an opportunity in our aftercare program to work on homework.

2. Good health and physical fitness
3. Good sportsmanship and fair competition
4. School spirit and loyalty
5. Moral development and training
